

Greystone Corporate Bond Fund

\$9.4B (C\$) in Fixed Income Assets Under Management¹

Why Invest with TD Greystone Asset Management

- We understand how fixed income risks can interact with equities and alternative investments
- We seek to deliver a bond strategy that provides stability to your portfolio in periods of stress, along with yield enhancement from private commercial mortgages

Investment Philosophy

- We believe fixed income portfolios should add value while also balancing the equity and liquidity risk of the total investment program
- To accomplish this we have developed a multi-strategy fixed income approach that will harvest value from interest rates and credit when they are attractive and will defend when opportunities are unattractive

Our Approach

Credit Targets

We actively manage our fixed income portfolios, using a combination of fundamental and technical analysis

Fundamental analysis seeks to identify the current stage of the interest rate and credit cycle by examining economic and monetary conditions

Technical analysis examines the supply and demand factors allowing us to appropriately scale risk around our fundamental bias
