

# TD Greystone Real Return Bond Fund

**\$9.6B (C\$) in Fixed Income Assets Under Management<sup>1</sup>**

### Why Invest

- Real return bonds can provide inflation protection as principal and coupon payments move with consumer price indices (CPI).
- The longer duration profile of real return bonds can also help hedge real interest rate risk for investors with longer term liabilities.

### Investment Philosophy

- We believe that a passive approach to real return bonds is prudent given a limited opportunity set.
